Besides, the machine has a main jackpot, a wild and a bonus symbol – that's a lot to be found in a five-reel, five-payline format, and a good example to free the players from a stereotype belief that games with fewer paylines don't have anything interesting to offer.

# Wheel of Fortune Payouts

The traditional fruit symbols share the reels with Royalty symbols like gold bars, cruise ships, diamond rings. Royalty symbols are also traditional, but the fusion of these two different kinds gives a new appearance to the slot presented in a classical style by IGT soft.

Wheel of Fortune slot machine game abides by the old feature of symbol payouts. In the game, the most collected winnings are activated by the random characters appearing on the screen with each spin. No paylines are used to determine winning combinations, which means the appearance of three or more similar items on adjacent reels triggers a payout. The game features 720 ways to win.
